ACCOR

International Project Coordinator

| LESS THAN 5 YEARS AFTER LEAVING SCHOOL

Today at Accor, Nicolas accompanies investors who undertake the opening or renovation of a luxury Accor establishment: from the management of tenders to the completion of the project, through the global estimate of costs, identification of FF&E, order from suppliers, logistics monitoring, and project management globally...

“Today, I have great responsibilities towards clients including financial issues. I was quickly given a lot of autonomy and I have real freedom of action. The Luxury Hotelschool and my experience have given me strong skills in business, marketing, strategy and leadership, which I am proud to serve in a group as dynamic and ambitious as Accor.”
